

Dynamic Works Workforce Rookie Program

Start their workforce career steps ahead!

DWI's Workforce Rookie program is your workforce starter explosion! Being new to workforce can be overwhelming and we know that new employees stay and feel effective when they know what they are doing. Workforce Rookie was developed with that in mind—a fast paced, interactive workforce development overview for those new to the industry. Introducing your new staff to the niche world of workforce development is essential for their success and the triumph of your program. Transferring skills and strengths from previous professional careers into workforce center case management, performance, compliance and regulatory language can be a struggle. Workforce Rookie makes this transition simpler and starts the foundation of a successful workforce career from day one.

Workforce Rookie is cost effective, available for new employees every other month, and reduces your training time. Each workshop includes live webinars mixed with experiential learning activities that prepares staff to serve customers with understanding and purpose immediately.
